

California State Assembly
MARK DeSAULNIER
ASSEMBLY MEMBER, 11TH DISTRICT

Dear Friend,

Last November, almost 70 percent of Contra Costa County voters supported Proposition 1B, the Highway Safety and Traffic Reduction Bond Act of 2006. In 2004, over 70 percent of you approved Measure J, extending the local half-cent sales tax dedicated to transportation improvements.

Working as a team, the community, elected officials, business, labor, and environmental leaders fought to ensure that your tax dollars go toward key local transportation projects. **They were successful!**

Just last month the California Transportation Commission approved \$315 million from Proposition 1B funding to fast-track Contra Costa County-related transportation projects.

These projects include \$175 million for the construction of a fourth bore of the Caldecott Tunnel and \$55 million for traffic management systems in the I-80 corridor covering both Alameda and Contra Costa.

There is still more work to do. Please attend a Town Hall to discuss planned transportation improvements, including proposed ferry service to San Francisco, information about the Hercules Intermodel Transit Center, and improvements to the I-80 corridor. **The Town Hall will be Wednesday, June 13, 2007 at 7:00 p.m. in the Hercules City Council Chamber.**

Please take a moment to fill out the attached card for updates on transportation improvements.

Thank you for your support.

Highlights of recently approved transportation projects:

Traffic Management Improvements to the I-80 Corridor

\$55.3 million appropriated for freeway and local road improvements between the Carquinez Bridge and the Bay Bridge.

Richmond Transit Village BART Parking Structure

The Contra Costa Transportation Authority approved \$4 million in funding to construct an 800-space parking structure at the Richmond BART Station to replace current parking. This will free up land for the construction of residential units on the east side of the station, and increase the total parking capacity by approximately 175 spaces.

Pacheco Transit Hub

Construction of a transit hub at Pacheco Boulevard and Blum Road to provide 116 parking spaces and six bus bays for express and local bus service. Targeted completion is Fall 2007.

Funding for a Fourth Bore of the Caldecott Tunnel (Highway 24)

\$175 million appropriated in February 2007 by the California Transportation Commission

**YES, I /we plan to attend the
Town Hall on Wednesday, June 13th.**

**Please keep me up to date on
transportation projects in my area.**

**I am particularly interested in:
(Please mark all that apply.)**

- ☐ **Highway 4/Cummings Skyway**
